

Rovere50

DESIGN RADIATORS

MARMO
SHAPING THE FUTURE OF ITALIAN DESIGN

Consiglio

Rovere50 brings wood to life with natural colours and grains. It is declined in a collection of design radiators proposing also new textures, through a workmanship halfway between industry and tailoring.

The Rovere50 collection is a unique and original story in which different atmospheres coexist: evocative and tactile in the reproductions of the wood, innovative and dynamic in the patterns.

Five finishes for
the collection
of design radiators
inspired by
the nature that
surrounds us
to give warmth
to your spaces

Cadore

Light, luminous, soft,
enveloping tones that recall
the style and simplicity
of the Cadore woods.

Dolomite

The white grain combines
with the colour of the rock
for a striking light and dark
effect, like the mountains
of the Dolomites.

Cansiglio

The depth of this piece
reminds us of a story where
quiet and shade rest at the
edge of a mountain stream.

Foresta Nera

Magic and mystery
intertwine along its warm
veins promising a safe haven
after a long day of work.

Tinta unita

Linear and clean, the solid
colour moves with a light
and sinuous sign, in which
the colour reinterprets the
wood in a thousand ways.

Rovere50,
unique and
functional,
dresses any
space with
elegance

Dolomite

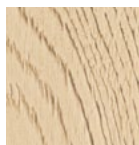

Technical data

Size and Power

30 x 110 cm
Electric: 350 WATT
Hybrid: 350/300 WATT
Hydronic: 300 WATT

40 x 160 cm
Electric: 1000 WATT
Hybrid: 1000/850 WATT
Hydronic: 850 WATT
